Exhibitors

We are excited to be returning to a Federation favorite, The Fairmont Chateau Whistler in gorgeous Whistler, British Columbia, for our 2012 Annual Meeting. It is a magnificent property with plenty of rooms to allow all of us to be in one location. Since our last visit there in 1999, it has had a top-to-bottom restoration and is lovelier than ever.

Located at an elevation of only 2,200 feet, Whistler's average temperature should be 80° daytime with cool evenings. In the area, you can go fishing, river rafting, horseback riding, mountain biking through the hills or down the ski runs, and zip-lining through the forests. The Fairmont's golf course is a world-renowned, 18 hole, par 72 course designed by Robert Trent Jones, Jr. which has over 400 feet of elevation changes. You can visit the venues of the 2010 Winter Olympics, and even experience first hand the luge runs. New since our last visit is the Peak 2 Peak Gondola for moving between Whistler and Blackcomb mountains at the top. It holds records for the highest and longest unsupported cable car span in the world.

Somewhat less physically challenging but nonetheless lots of fun, we will have history and photography hikes guided by local experts, a local garden tour, and our more traditional bridge and knitting events. For our culinary devotees, we have planned cooking classes by the area chefs, as well as wine and beer tasting opportunities to take advantage of the local British Columbia vineyards and brews.

Scott Kreamer has planned a superb program. Highlights include an entire plenary session presented by Afterburner, an internationally renowned group of former fighter pilots

The Fairmount Ch

who will present an interactive workshop on Rapid Planning. Law firm and corporate executives will find immediate business relevance. Our keynote speakers will be Dana Perino, political commentator and former White House Press Secretary to George Bush, and Terry McAuliffe, former Chairman of the Democratic National Committee and former chairman of Hillary Clinton for President. Get ready for the National Conventions and the Presidential race by hearing these two insiders debate and share with us their expert perspective.

Social events will take advantage of our beautiful surroundings, beginning with cocktail parties at the hotel early in the week. The President's Reception, honoring Mike & Jan Neil, will take place at 6,070 feet at the Roundhouse atop Whistler Mountain, where you will arrive after a spectacular gondola ride. Our theme party will allow members and families alike to enjoy and learn at the Squamish Lilwat Cultural Centre, the first ever center dedicated to the history and culture of local First Nations. Built to preserve their culture and share it with others, the building is designed to evoke the longhouses of the Squamish people and the traditional earthen pit houses of the Lilwat people with a modern architectural interpretation. It is filled with hands-on crafts activities and live demonstrations of arts and culture.

Dine-around evening will present you with the wonderful problem of where to go among a plethora of first class restaurants in the Whistler Village and surrounding area. This will be followed by dessert and a very special treat — a private concert by Canada's premier country western singer, Jessie Farrell!

And we haven't forgotten the Federation kids! The older groups will have their own very special evenings, including an eco scavenger hunt through Whistler and an evening challenge at Monkido — an aerial adventure course through the trees. Younger FDCC children will also have special events, including an evening at the Adventure Zone at the base of Blackcomb Mountain.

Our final "Enchanted Forest" Gala at the Fairmont will be an elegant, non-black tie dinner dance.

Please join Mike, Jan, and me for a trip the whole family will remember forever.

Vicki Roberts

P.S. Don't forget you need your passport if traveling from outside of Canada!

Travel

Vancouver International Airport (YVR) offers convenient access from all major carriers throughout the world. Driving to Whistler will take about 2 hours if you drive North on the Sea to Sky Highway. However, once you arrive at the resort, you probably will not need a car as most everything is accessible by foot or the free Village Shuttle.

You may opt for travel by a luxury bus or a car service to and from Whistler. Travel to Whistler by the Rocky Mountaineer Sea to Sky Climb train is another option if you want to experience the elegance and leisurely pace of an earlier age. If you are adventurous, and do not bring much luggage (there is a 25 pound limit per person), you may want to get to Whistler by floatplane. For information, visit www.whistler.com and click on “Getting There”, or call 800-944-7853.

Whistler Weather

Whistler is located in the Coast Mountains of British Columbia and is known as one of North America's top destinations for all four seasons. In the summer, when Federation members will be there, we can participate in many outdoor activities as average daily temperatures are in the low 80s during the day, and in the high 40s and low 50s at night. In the daytime, it should be warm enough for shorts when outside, but in the evenings, temperatures can dip, so sweaters or jackets will come in handy.

Cancellation Policy

We hope you will not have to cancel or ask for a refund once you have registered for the convention. We realize, however, that trial schedules and last minute emergencies may require cancellation and a request for a refund.

Please be advised of the Board approved refund policies.

- 1) A refund of registration fees, less \$75 and any applicable credit card fees, will be given if the FDCC office receives written notice no later than June 15, 2012.
- 2) Amounts refunded by payments made by credit card will include a deduction for the amount the credit card company charges to the FDCC for both the charging and the credit.
- 3) In the event of "special circumstances" such as illness, or unforeseen family or professional emergencies, this refund policy may be suspended or modified (based upon the member's written request), only by action of the President upon recommendation of the Convention Chair. It is recommended that all registrants get trip cancellation insurance.
- 4) To cancel hotel reservations, notify the FDCC office first by emailing mstreeper@thefederation.org to check if the room needs to be reassigned to another member on the wait list. Then, if the room is not needed, call the hotel to cancel. The Convention Chair has no authority to modify the hotel's cancellation and refund policies.
- 5) Charges paid to the FDCC for separate events and/or tours may or may not be refunded in whole or in part. The decision to refund these will be made on a case-by-case basis by the Convention Chair. Members seeking reimbursement for these payments must submit a written request to the Convention Chair. The decision to refund fees will be based, in part, upon the timing of the cancellation and whether there are available convention funds from which to make the refund. Please note that refunds of any payments to independent third parties for tours and other events and service are not the responsibility of the FDCC.

Civil Rights & Public Entity Liability/Trial Tactics, Practice & Procedures

“The Art of Presentation in the World of the Short Attention Span”

This program will focus on the realities of presenting information to the modern juror, who lives in a world of media overload. Movies, news programs, and the overload of electronic information have forced jurors to develop ever shortening attention spans. How can we as lawyers prepare presentations that capture and hold their attention when providing them with information? The program will provide helpful and practical suggestions that can be used on any case, large or small, to make visual presentations more interesting and capable of holding a short attention span.

Panelists: Robert L. Christie – *Christie Law Group, PLLC*, Seattle, WA
Kile T. Turner – *Norman Wood Kendrick & Turner*, Birmingham, AL
Todd Raskin – *Mazanec, Raskin & Ryder Co., L.P.A.*, Cleveland, OH

Employment Practice & Workplace Liability

“Agency Initiatives and Enforcement: The Government Is Busy – and Why Employers Should Care”

The government agencies that oversee enforcement of the nation’s labor and employment laws have been ramping up over the past few years with an aggressive agenda of enforcement. These agencies have bigger budgets, more investigators, new compliance initiatives, and more bandwidth for audits and investigations. Whether it’s the NLRB’s foray into employee social media use, the OFCCP’s proposed hiring goals for individuals with disabilities, or the DOL’s crackdown on employers that misclassify independent contractors (and sharing that information with the IRS!), the risks for employers that may be out of step with the latest legal requirements is higher than ever. In this session, we’ll explore recent developments at the various federal labor and employment agencies. We’ll also walk in-house and outside counsel through best practices to keep the agencies away from the corporate doorstep, and practical strategies for how to respond if they do come knocking on the door.

Learn what this Act is and why it is relevant to you and your clients. We are honored to have as a speaker Congressman Spencer Bachus, the current Chair of the House Committee on Financial Services. “Turning Bad Faith Inside Out: Setups of 3rd Party Bad Faith Claims”

In recent years the bad faith landscape has shifted from a safeguard intended to protect consumers from egregious actions to an elaborate trap set by plaintiff’s counsel to reap outrageous awards from seemingly innocent conduct by claims professionals. Insurance companies that don’t meet time limited demands are increasingly exposed to multi-million dollar excess verdicts or assigned bad faith claims. This program will discuss strategies used to set up insurers and proactive measures to avoid extracontractual liability and safeguard the ability to enforce policy limits.

“Advocacy in the Age of Instant Gratification: Become Your Wireless Juror’s BFF”

Persuading today’s jurors, who obtain their information via television and texting, requires new approaches to presenting evidence in the courtroom. Traditional advocacy must be adapted to tap into jurors’ values using the optimal presentation techniques. What will the “what’s in it for me” generation think of your client’s behavior and how can you present your client’s story most effectively? To find out,

Jack Delany and David Governo, in conjunction with Courtroom Sciences, Inc., conducted a focus group study of how potential jurors from different generations view defenses in a mock nanotechnology personal injury claim. Jack Delany's presentation will: (1) describe the results of this study (including video clips of jurors' deliberations), (2) explain how Baby Boomer, Generation X and Generation Y jurors assess key issues such as warnings, causation and damages and (3) demonstrate the cutting-edge courtroom techniques that resonate across generations.

In a commercial motor vehicle case, the deposition of the company's safety manager is a crucial event that plaintiffs' lawyers are pursuing more frequently and with better preparation than ever before. This interactive panel discussion will address best practices for preparing the safety manager, avoiding the traps, and neutralizing plaintiff's counsel.
