O'Donnell

Presenter, "Getting on the Right Side of the 'v.': Suing and Being Sued for Business Torts," The Association of Corporate Counsel's In-House Counsel Forum, (April 16, 2014).

Presentations
Apr 16, 2014

Business tort lawsuits are becoming increasingly prevalent as parties and lawyers look for ways to avoid contractual limitations on damages. These tort claims are being used as a "sword" in commercial disputes to circumvent arms-length contractual agreements. LaMar Jost and co-presented an overview on new and important case law, new legislation, legal theories and defenses, and other recent developments that help companies understand when filing a tort claim is appropriate and, if necessary, the means to defend tort litigation.
