

Pfizer Presents WTO with Performance Award

News

May 14, 2008

DENVER: On March 26, 2008, Pfizer Inc presented Wheeler Trigg O'Donnell with its P3 Award "for exceptional performance" in representing Pfizer in the two-year period 2006-2007. In choosing WTO for this recognition over more than a dozen other law firms that represented the company during that period, Pfizer explained that it based the award on WTO's work as national counsel on all litigation related to one of the company's leading pharmaceutical products.

WTO partners Malcolm Wheeler and James Hooper lead the WTO Pfizer team. Malcolm Wheeler, who has handled both trials and appeals for Pfizer, said, "It is gratifying to have a client publicly commend us for providing outstanding service, especially when the client is the world's leading pharmaceutical manufacturer and when the other candidates for the award included many of the nation's largest, most prominent law firms with offices throughout the world."
